OUR MISSISSIPPI INCOME TAX LAW

Deductions - Taxes, Losses, and Debts

There may be deducted from gross income, in order to determine net income, the following:

1. All taxes paid to a taxing authority except income, estate, inheritance, and gift taxes.
2. Losses sustained in any transaction entered into for profit or from fires, storms, shipwreck, airplane wreck or theft.
3. Bad debts.

There are so many taxes imposed and paid these days it is difficult to keep in mind those which may be deducted and those which may not. The return form states that income taxes may not be deducted. Sales, tobacco, gasoline and amusement taxes, and all other taxes which are not paid by the consumer directly to the taxing authority, are not deductible by the consumer unless they constitute an ordinary and necessary business expense.

The above statement with respect to sales taxes paid is in keeping with the ruling of the Attorney General issued after the enactment of the mandatory Sales Tax Law in 1956.

From and after January 1, 1958, drainage tax is not allowed as a deduction, other than that part which is the administrative cost of maintaining the drainage district and the interest on the bonds. That part of the tax which constitutes principal payment on the drainage bonds may not be deducted by the taxpayer. This rule is identical with that of the Internal Revenue Service, and the taxpayer should experience no confusion.

It might be added that the tax on fur is paid by the retailer and may be deducted as a tax by him and not by the purchaser or the consumer. The same statement will apply to luggage and jewelry. Losses sustained in the regular trade or business may be deducted only in the year in which sustained. In determining the loss from fires, storms, shipwreck, airplane wrecks, or theft, it should be borne in mind that the cost of the asset must be reduced by the salvage value, the insurance, and the depreciation allowed. Remember that the phrase "other casualty" is not in the Mississippi Income Tax Statute. It is in the Federal Income Tax Law.

The only bad debts which may be deducted as such are those sustained by accrual basis taxpayers who have reported as income the amount of such debts. However, a bad debt which does not meet this requirement may be deducted, in many cases, as business loss or a loss from a transaction entered into for profit. Bad debts may be deducted only when determined to be worthless.

Every single person whose income exceeds \$7,000.00 is urged to file a report. A statement of the income and the deductions claimed will suffice. This will prevent correspondence at a later date. It will reduce the cost of administration. It will be a definite contribution to the improvement of the service which the Commissioner and his staff are trying to render.

1963 FEED GRAIN PROGRAM SIGNUP REPORTED

As of March 22, the final sign-up date, farmers in Hancock County had signed up 118 farms to participate in the 1963 feed grain program. Tommy R. Shaw, Chairman of the Hancock Agricultural Stabilization and Conservation Committee, reports that the "sign-up" to participate in the program is "very good." The program is designed to divert 14,000 acres to be devoted to the production of corn, grain sorghum and barley. The diversion is from base acreages (1960-62 average plantings) of 17,000 acres. For farms signed up, estimated total payments for diverting acreage amount to \$30,000.00, not including price support payments to be made this fall.

National program totals through March 7 show 629,535 farms, divided into direct - 13,120,000 acres from base acreages of 24,799,000 acres. Estimated total payments for diverting acreage on farms signed up amount to \$30,000,000, not including price support payments to be made to growers.

In general, provisions for the 1963 program follow those for 1961 and 1962 crops in giving feed grain producers an opportunity to participate in the program by diverting acreage from base to feed grain production.

WAVELAND, MISS.

There are some who think it a rare treat and a funny tale to go call on the town. By rolling, we mean the baby trick of playing with toilet paper, letting it float in trees etc., while driving a car. A baby has to be corrected for playing with paper and it is understandable, he has the mind of a baby. But young boys and girls who consider themselves young ladies and men, it is a stupid unsightly gesture.

Getting to things of beauty, the wisteria is beautiful and running rampant everywhere, in trees and everything it can cling to, seems as if the cold has helped the wild vine.

The Blessed Virgin Sodality held its regular monthly meeting on Tuesday night at the home of Mrs. Cornelius Herlihy.

Members were informed that Mass would be held in St. Clare's Church Easter Sunday.

Congratulations to Mr. and Mrs. John Longo on the arrival of a baby son Saturday morning in Gulfport Memorial Hospital at 4 a. m. Jeanne catches up on all her book work while she is convalescing in the hospital. Guess by now she has all her books in tip top order.

Mrs. Richard Olson and daughters left for Japan Monday.

We know Mom and Dad, Ducre and Mazi Bourgeois had the blues this week about their departure. Both daughters and children are overseas with their husbands. Andre in Germany and now Patricia in Japan.

Time flies tho and before we know it they will be home again.

Lynette and Guinn Drew and their grandmother Mrs. Lydia Bourgeois came over for the week end.

Lynette and Guinn returned to New Orleans Sunday. Mrs. Bourgeois remained for a week.

Mr. and Mrs. Lloyd Bourgeois and family are very happy to have their son Pat home again.

NORTH CENTRAL STUDENTS PRESENT STYLE SHOW

Students in the Home Economics classes of Mrs. Cornelius Favre presented a style show Friday modeling the clothes which they made.

The Seniors showed suits. Lois Bounds was judged first for her oxford grey flannel made with slim skirt and semi-fitted jacket; Carolyn Ladner was second in a royal blue wool with straight skirt and chanel jacket.

Wanda Pippin, wearing a blue spring print afternoon dress with a portrait collar, was awarded first place among the Juniors; tying for second were Ann Deaux in a two-piece red, wool and Romonia Hoda in an aqua pima school dress.

Lena Mae Garriga in a red wool suit and Janie Shaw in a turquoise blue skirt and vest worn with a white blouse tied for first place among the sophomores.

There was also a tie for first place in the freshmen class between Glenda Sue Necaise wearing a red sheath trimmed in braid and Brenda Ladner in a dark cotton suit with chanel jacket.

Eighth grade students showed aprons, skirts, and blouses. Gaydell Hermann in an aqua slim skirt and matching overblouse trimmed with white banding tied with Lorraine Bennett who wore a smart red plaid skirt with matching sleeveless overblouse. Judy Deschamps white broadcloth apron elaborately trimmed with pink rickrack braid tied with Gloria Stiglett's red apron trimmed with white rickrack.

Special feature of the showing was the appearance of Mrs. Leroy O'Toole, who started sewing less than a year ago under Mrs. Favre's tutelage and followed it up with a course in Parisian dressmaking. Mrs. O'Toole modeled a white silk lime suit and a dark silk basket weave suit with chanel jacket, both designer's modes and exquisitely tailored. She also showed a satin cocktail suit and satin lounge coat she had made.

Judges were Mrs. L. P. Bates, Mrs. J. C. Harrell, Mrs. Frank Lee, and Mrs. G. S. Kennedy. Edna Moran, a sophomore wearing a royal blue suit with a spring print blouse in blue and white, narrated the show.

JAYCETTES MEET AT HAAS HOME

Bay St. Louis Jaycettes met Wednesday evening at the home of Mrs. Michael Haas, president.

Mrs. J. E. Erwin Pay High Home Economics instructor gave sewing tips and showed a film on proper fitting and ways to correct fitting problems.

At the general meeting which followed, members who had clothes to donate were asked to contact Mrs. John Koennen at HO-7-5123 or Mrs. Don Luxich.

Plans were discussed for an Easter egg hunt for children of the Hancock County retarded school. Details and a date will be announced at the next meeting.

A white elephant auction was held.

Hostesses for the social hour were Mrs. Marcel Anderson and Mrs. John Koennen.

The next meeting will be held April 10 at the home of Mrs. Don Luxich, at which time Mrs. Lewis Hart, R. N., will conduct a program on first aid in the home.

CAREER TALKS AT HANCOCK NORTH CENTRAL

District Attorney J. Boyce Holman spoke to the student body of Hancock North Central School on "Career in Law and in Public Service." He emphasized the importance of preparing in high school for the lengthy professional education required. Personal qualities needed are Honesty, tolerance, patience, persistence, consideration, and intellectual integrity. He stated that there are more than 356,330 people engaged in the practice of law, most of them in private practice. However some are employed by corporations, and the federal state, or local governments. Those in public administration have excellent opportunities in public service.

Jess P. Roberts, Data Processing Manager of the International Business Machines of New Orleans, cited the ever-growing use of "electronic brains" for solving the problems of industry. To function, the computer must have its information fed to it by a "programmer" or "data processor", who is a professional person with a college education engineering, business administration, or mathematics. Key punch operators prepare the data for input into the computer.

Equipment operators manipulate the control switches and panel lights, printer operators put the results in readable form, and librarians catalog and file the results. Also needed are service and repairmen to maintain mechanical efficiency. Mr. Roberts also said that students attending colleges with such electronic equipment are urged to "feed" their problems to it.

D. E. Wilcox, owner of Wilcox Electric Co. of Waveland, spoke on the sale and servicing of electrical appliances. He cited his own career, tracing his life from the time he was orphaned, through a boy's home, the Navy, where he learned electrical work, and his first business enterprise when he transported himself by bike. Those interested in electrical work were told to serve an apprenticeship with an electrical shop, attend trade school, or finish high school and join the armed forces where special training is available.

Mrs. Ezelda Ling, Public Health Nurse, for Hancock County, spoke on nursing. She urged girls interested in this profession to concentrate on science and social studies and home economics in high school, to maintain a good scholastic average, and to participate in extra-curricular activities. She differentiated between nursing training with and without a college degree; spoke about institutional, private duty, industrial public health, and teaching nursing. She also explained the differences between a registered nurse, practical nurse, and nurse's aide. Opportunities are particularly good for boys in this field because so few are attracted to it.

Mrs. Caroline Kiefer spoke on the theater as a career, urging the students NOT to strive for the spotlight in acting unless they were prepared to make many sacrifices, do much studying in all fields related to the theatre, and dedicate their lives to the stage and the public. However, she mentioned that those working with the actors and actresses were well paid, usually employed steadily, and were also part of the glamour of the stage. Some of the jobs in the latter category are hair stylist, make-up artist, costume designer, wardrobe mistress, set designer, prop man, lighting technician, etc.

MRS. BUTZ INSTALLED HEAD OF BLUE JEANS GARDEN CLUB

Mrs. A. J. Butz was installed president of Town and Country Garden Club at the club's 11th birthday luncheon last Tuesday, at Annie's Restaurant, Henderson Point.

Others taking office were Mrs. Edward LeVasseur, vice president; Mrs. C. A. Phelps, secretary and Mrs. S. K. Kepner, treasurer. The club selected working for the cancer fund as its project for the year. A movie on cancer, it was announced, will be shown by one of the local doctors some time in April. A definite date will be announced.

Anyone interested in the program will be welcome.

Mrs. J. C. McNamara won the entrance prize.

Following the luncheon the

SOUTHERN BELL MAKES PROGRESS AT THE SCRAP HEAP

Whether you like it or not, there usually is enough food remaining after dinner for at least one meal of leftovers. Ask any wife or any husband. Used leftovers help keep down food bills.

The same principle applies right here in Bay St. Louis with the Telephone Company according to J. C. Dabney, Manager for Southern Bell.

"Economy certainly is an important part of keeping down the cost of our local telephone service, and we try to conserve all scraps possible here."

Scrap piles do not necessarily mean inefficiency or waste, for progress can produce scrap. There's the accumulation of scrap as the unavoidable by-product of manufacture and the scrap that comes as a result of normal wear and tear.

"The annual scrap heap produced in the Bell System amounts to about 400 million pounds. What would you do with more than million lbs. of telephone scrap every day? That's equal to over 350 automobiles weighing an average of 3,000 pounds each." Mr. Dabney states that a firm located at Tottenville, Staten Island, New York daily sorts the

scrap. The Bell System is recovering all of its Bell System scrap at other processing plants. To give an idea of Bell's scrap, they send out a million for smoke. To control smoke from printing operations, a device moves the zinc particles from the scrap gases. About 1,700 barrels of zinc are retrieved each year from smoke and sold, chiefly to chemical industries.

It is encouraging to know that even though progress may produce scrap, someone is working to turn part of it in a usable form for still more progress.

During the period 1901 to 1905, only 2.8 per cent of all steel made went into the manufacture of consumer durables, such as automobiles and household appliances. In the period from 1956 to 1960, 22.3 per cent was used for that purpose.

Skip the sulphur and molasses— get a CHEVROLET SUPER SPORT

Chevrolet Super Sports* have a charm that soothes your springtime yen for romantic adventure as fast as you can slip into a bucket seat. (Especially the Impala's, with its adjustable new Comfortilt steering wheel*) Front bucket seats are a great start, but Super Sports also feature plush all-vinyl interiors, special interior-exterior trim in tasteful touches, and a veritable feast of goodies we call performance options*. Chevrolet and Chevy II Super Sports invite adventure in convertible or coupe form. That same Super

Sport zing applies to the Corvair Monza Spyder, very breezy with its air-cooled 150-horsepower rear-mounted engine, and 4-speed shift*. Ditto for the new Corvette Sting Ray, a magnificent thoroughbred among pure-blood sports cars with not a single sacrifice in comfort. Both Spyder and Sting Ray come in coupe or convertible styles. All Chevrolet Super Sports are like spring days—you've got to get out in them to savor them. So catch yourself a passing zephyr and wait on down to your Chevrolet showroom.

*Optional at extra cost.

What Do I Wish?

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Pam can't keep a secret. She'll probably tell us what she wished before the cake is half eaten.

Whatever her wish, it will be for a little girl type of thing.

But—what of me? What do I wish for my daughter? Success in a career... happy marriage... children... a beautiful home... a fair share of worldly goods... health... happiness?

I suppose I wish all of these things for Pam, in some measure. But if I had to limit myself to a single wish—I would ask for her a deep and abiding faith. How wonderful it is to have an unshaken belief in God's ways and His works, plus the conviction of His love for us.

Some of us may be limited in our ability to give our children material things, but we need never stint on teaching them spiritual values. Start taking your children to church and church school this Sunday.

Social Security

Mr. Jerome Drane, social security district manager at the Gulfport, Mississippi social security office, would like to remind all employers that they are required to file quarterly reports of wages on Form 941 to show the employee's earnings and social security number. The return exactly as it is on the employee's social security card. Failure to follow these instructions may result in the wages not being credited to the employee's social security account. Since the amount of retirement, disability and survivors benefits payable is based on the amount of wages reported to a worker's account, it is extremely important that his wages be properly reported. Many employers report a married girl's wages under

her married name when she has not changed her name on Social Security Administration's records. The proper procedure is to continue to report the employee under her maiden name until she gets a new social security card showing her married name. Do not change your records if the employee merely crosses out her maiden name on her social security card and writes in her new name. She should be urged to call at her social security office to get a new card that will show her original social security number and her new name. Once again we would like to remind you to be sure to copy the employee's name and social security number exactly as shown on the employee's card. Do not trust to his memory. Ask the em-

ployee to show you his card. If you have any questions on how the reports are to be completed, consult your local social security office or Internal Revenue office.

Fly fishing let up over the week-end due to exceptionally low tides, we think. The water in Mulatto, White and Coward Bayous was clear but the fish just would not strike. Of course a few small trout and perch were caught. After fishing these streams for the past 35 years, cannot explain why the fish are not biting. Could be that we need a week or two of real warm weather as the water is still a little chilly. The only fresh water fish were caught by trolling and they were small.

As for speckle trout, a few were caught the early part of the week off the R. R. and Highway bridges. Just as an indication Al Mericor caught one nice one Tuesday morning but had to stop fishing on account of rain. The specks were caught on plugs. Maybe the specks are moving in and will go up Jordan River as they usually do this time of year.

Went out the other night after soft crabs. Didn't do so good. The tides ran all afternoon and at night. Should change this week-end.

Haven't heard of any flounders being caught as yet. Maybe the March winds have something to do with all kinds of fishing. They have been pretty strong.

On checking with the fishermen we find that Alton Sick and Bob Giveans have been after them. They caught a few fresh water fish last week.

Fonzo F. Daniel, Paintsville, Ky., returned home last week after visiting relatives in New Orleans. He was telling us how they caught 'em a long time back. He is a good sportsman.

Ralph Dupas of New Orleans will be over Thursday, Friday and Saturday to referee the boxing matches sponsored by the Sideline Club of St. Stanislaus at the S. S. C. Gym. There will be 20 matches each night. Ralph is no stranger to local fight fans as he refereed bouts at Bay High Gym about 8 years ago.

Mrs. Chas. Spencer, her daughter, Charlene, Janet Trapani and Fay Monti went fishing last Saturday. Didn't find out what they caught.

A deer was killed Monday night out by Crump's place on the Kiln Road while crossing the road. The big buck was badly mangled and had to be disposed of. Killing of deer by motorists is not unusual.

Leo Choina says he is still trying to catch some fish. Can't go like I used too, however.

Understand Dr. Bertucci will be over soon to do some fly fishing. Doc says he has been a pretty busy man lately and is way behind on his fishing. Won't catch them all before you get over Doc.

According to news from Washington officials of the Fish and Wildlife Service estimate that hunters killed 215,500 ducks in Louisiana in the 25-day 1961-62 hunting season.

The estimate was given during a closed hearing before a House

NOTICE OF TRUSTEE'S SALE

STATE OF MISSISSIPPI COUNTY OF HANCOCK I, Tate Thigpen, Trustee in deed of trust from Freeman J. Austill and Ruth Austill to Solon W. Britt, Jr., D/B/A Tower Loan Brokers, dated November 21, 1958, recorded Book 75, page 301 of Land Trust Deed Records of Hancock County, Mississippi, being requested by the holder of debt secured to foreclose same, for default therein, will on March 25, 1963, during legal hours, offer for sale and sell at public outcry for cash to highest and best bidder, at the Front Door of Courthouse

appropriations subcommittee. The record of the hearing was made public today.

At the same time the number of Louisiana hunters was estimated at 35,940 and the ducks killed per day at 8,620.

Just for information Pearl River is still on the muddy side but is clearing a little. Should be good for fishing soon.

The last Triple Crown Racing Winner was Citation in 1948. Calm Hoy Stable's Never Bend and Rex Ellsworth's Candy Spots loom as serious threats for coveted honor this year.

John Genin and John Scaife, Jr., are practicing for the coming Jaycee Junior Golf Tournament to be held soon. John Genin was a contestant last year. Other young golfers are also tuning up for the event.

The oyster dredging season which ended March 11, the most productive in many years, poured about \$24 million into Mississippi's economy.

Records showed more than 211,000 barrels were harvested and oysters still were left on the reefs, including enough small ones to be used for seed purposes when planting begins in April.

A fish fry will be held Friday night at the K. C. Hall. Like eating fish? Better be on hand.

Have information that the specks are beginning to appear out at the marshes. Local fishermen are preparing their boats and fishing gear for the slaughter. Specks will soon be plentiful out there and no other spots furnish better fishing. It takes a fairly large boat to make the trip to the marshes as the waters between here and there get rather rough

at times. Better to be safe!

A few hard shell crabs are being caught, shouldn't be long before they will be plentiful. A few nets, some bait and patience should accomplish some good eating.

Understand from fishermen going to Empire in Louisiana that they are slaughtering specks, red fish and red snappers. Accommodations can be made for a trip to Empire on chartered boats with bait and tackle furnished at nominal fees. If you like deep sea fishing now is the time to go.

plans the fabrication, assembly, static firing and launch of the Saturn I as well as the Lunar Orbital Rendezvous. The Saturn I model will be displayed in the Loyola Field House while the other MSFC exhibit will be in the Tulane "U" Center.

NEW ORLEANS, La. - A \$26,438 contract has been awarded the New Orleans firm of Manson, McMaster, Inc. for entrance walkways and aprons at Michoud Operations here.

This contract calls for site preparation, setting drainage catch basins, pouring and finishing concrete, and relocation of one fire hydrant and utility pole.

All work is to be completed in 45 days under terms of the contract let by NASA-Rust, support contractor for NASA at Michoud.

NEW ORLEANS, La. - Engineering Week participants at Louisiana State University in Baton Rouge, La., April 5-7, will have the opportunity to see space exploration exhibits from the Marshall Space Flight Center, Huntsville, Ala.

A one-tenth scale model of the Saturn I will be on display. There will also be a MSFC panel board display depicting two phases of space exploration.

One portion of the exhibit shows the fabrication, assembly, static firing and launch of the Saturn I, while the remaining sections depict the Lunar Orbital Rendezvous. Illustrated brochures of various National Aeronautics and Space Administration projects will be distributed.

Marshall is the parent organization of the Michoud Operations in New Orleans, where the giant boosters for the Saturn I and Saturn V space vehicles will be manufactured.

NORTH CENTRAL 4-H CLUB NEWS

The North Central 4-H Club meeting was called to order by President, Brenda Hudson and the 4-H Prayer by Kathy Ladner and roll call by Kathy.

Exhibits were laid out for Mrs. Hughes to look at. County Attainment Day was discussed.

Demonstrations were given on how you should act and walk down the street, etc., by Kathy Ladner, Gay Necaise, Loraine Bennett, Betty Spiers and Brenda Hudson, Linda Saucier, Evelyn Ferguson, Lamar Ladner, Valrie Paige, while the exhibits were carefully looked over.

Songs were led by Marie, Gay and Glenda. Mrs. Hughes gave an example for our judging county attainment day.

The meeting was adjourned. The Hancock County North Central 4-H Club met at its regular meeting time. The President called the meeting to order. Mrs. Hughes read the 4-H Club Prayer for the Devotional.

Songs were sang which included Patsy Ore-A-Ore and Home On The Range.

North Central 6th grade 4-H Club met. The meeting was called to order by President Kathy Westbrook. Roll call and minutes were given by Secretary.

Mrs. Hughes examined each exhibit the girls brought in preparation for County Attainment Day, in Bay St. Louis which will be March 29th.

The thought for the month was "Efficiency is making the best of what you have where you are." It was read by Kathy Westbrook, President. The 4-Hers played the game 7-Up while Mrs. Hughes examined each exhibit.

COUNTY AGENT'S NOTES O. O. SWORDS County Agent

The feed program is the first step in dairy planning. Right now, or primary importance is feeding the dairy herd until grass comes.

Research shows that in an emergency a dairy cow can get by on six to eight pounds of hay a day, or 18 to 24 pounds of silage a day. After meeting this minimum, feed heavily on concentrate feed. This will increase the cost of producing milk, but if production is to be maintained cows must have plenty of feed.

On this restricted roughage program with high grain feeding, adding bulk to the concentrate mixture will help. You might use ground ear corn rather than shell corn; wheat bran, beet pulp, oat mill feed or rice mill feed will also add bulk. Cottonseed hulls or bright oat straw will also help.

Then plant new spring grazing crops for early spring grazing. This could be lespedeza on thin oat or wheat sod. Then around April 1st plant Sudan or millet. Nitrate ryegrass and oat areas where winter survival warrants.

Figure next year's stored feed needs and make plans to grow the needed feed and store it.

Some rules: Balance the number

of cows with the amount of feed, properly feed cows. Grow more silage for more profit. Silage feeds, cows can eat and five tons of silage is available, they eat 2 1/2 tons of hay. Feed each cow times her body weight lower 1/3 of the feed record program as this past winter.

On rural electric lines

Each New Home Means New Jobs

What makes it possible to build and enjoy a modern home miles from town? It's electric power! Can you imagine modern living without it? Because rural electric power is available, someone has decided to build. This decision means sales of everything from roofing nails to plumbing fixtures and floor coverings. These sales benefit local lumber yards, hardware stores, appliance dealers, and a host of other

merchants.

Because rural electric power is there, the jobs are there. Local workmen get employment that otherwise would never come about.

Adding up the score, we've found that new rural housing opens up more than 50 kinds of sales and jobs for local merchants and workmen. That's why we say Rural Electrification is good for all Americans.

PURPLE HEARTERS TO FORM TRI-COUNTY CHAPTER

An organizational meeting of all combat wounded Veterans and Servicemen of Harrison, Jackson and Hancock Counties, Mississippi, who have been awarded the Purple Heart Medal by the War Department, will be held at 7:30 p. m. Wednesday, April 3rd, in room 210, Gulf National Bank Bldg., Highways 49 and 90, in Gulfport. All holders of this most honorable award are invited to attend. This will be the first Chapter to be chartered in the State of Mississippi, while there are some three hundred Chapters and Departments, throughout the United States, Alaska, Honolulu and France, functioning since 1932.

On February 22, 1932 the one hundred fiftieth anniversary of the birth of General George Washington, President Herbert Hoover ordered General Douglas MacArthur, then Chief of Staff of the Army, to have the Purple Heart Medal Struck and issued to all who were entitled to wear them. The Purple Heart Award is the first Military Decoration of the United States, having been awarded to his soldiers of the Continental Army by General Washington, for gallantry and Essential Service of Distinction. It is the second oldest known decoration in the world, the first being "The Order of the Garter" of old England.

Within a few months after the revival of the Purple Heart Award a small group of Purple Hearters banded together and organized the Military Order of the Purple Heart of the U. S. A., Inc., with membership open only to those who had been awarded the Medal by the War Department. It dedicated itself to serve the combat wounded of all American wars, their widows and children. The organization grew normally and Chapters and Departments sprung up throughout the United States. Then since World War II and the Korean Conflict, with the many thousands of casualties and supreme sacrifices, the membership has grown proportionately.

The objectives of the Military Order of the Purple Heart are Patriotic, Historic, Fraternal, and Educational, and dedicated to the service of the veteran and the community. It was granted a Congressional Charter and maintains a National Headquarters in Daytona Beach, Florida and a National Service and Legislative Office in Washington, D. C., for reviewing and prosecuting claims of Veterans, their widows and orphans. In addition it has Service Offices in most states as well as Voluntary Services in most Veterans Administration Hospitals and other Hospitals, where veterans are confined or ill.

O. V. Phillips, National Field Representative and Service Officer-at-Large for the Military Order of the Purple Heart, of Daytona Beach, Florida will conduct the meeting and urge all Purple Hearters of this Tri-County Area to be present so that they may become Charter Members. The wives are also invited to attend.

BOOKTER WEIR 72, DIED WEDNESDAY

Bookter O. Weir, 72, husband of the late Blanche Dyer Weir, died at 12:15 p. m. Wednesday, March 20, at the Gulfport Veterans Hospital where he had been a patient since January 9, 1963.

A native of Greenville, Miss., he had resided at 114 Booker Street, Bay St. Louis for the past 17 years. Mr. Weir, who was born April 13, 1890, served in the U. S. Navy during World War I as a seaman second class. He was a member of American Legion Clement R. Bontemps Post 139; the Veterans of Foreign Wars, and Coast Buddies Barracks 709, Biloxi.

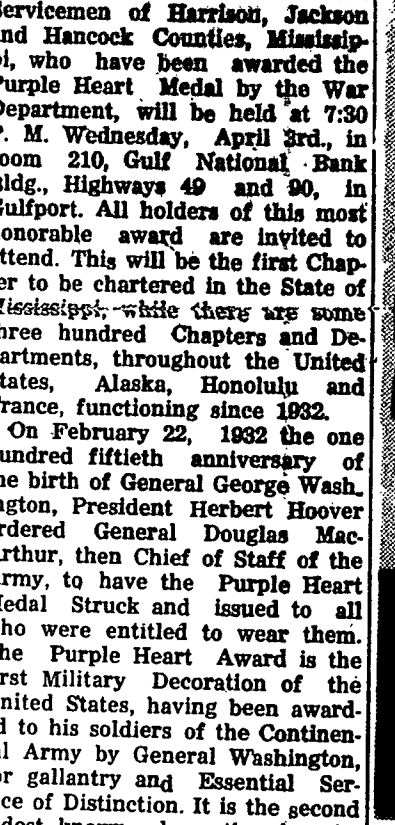

He was a grandson of the late Alexander Bookter who donated a strip of land from the beach before the Old Spanish Trail which bears his name, Booker Street.

Mr. Weir is survived by a sister Mrs. Dorothy W. Moran, 114 Booker Street.

Funeral services were held Friday afternoon with the Rev. N. B. Saucier, chaplain, officiating. Interment was in the Biloxi V. A. Center with military graveside services.
